

Brand of the VanDrie Group

Peter's Farm® Veal, the distinctive plus points for you:

The points below are subscribed to by the Dutch Society for the Protection of Animals:

- No anaemia (hemoglobin \geq 6 mmol/l)
- Satisfaction of the calf's need to suckle by provision of nipple feeding and dummy nipples
- Biorhythm, calf decides its own activity
- Minimum of 3 to 5 drinking turns per day
- Individual control and monitoring per calf
- Information about milk preparation during the calf's life on the farm is recorded
- More than twice as much high fibre fodder as legally prescribed
- Provision of lucerne and/or straw from the first day
- Provision of water
- Herd behaviour (ranking by the herd itself)
- Improved lying and walking facilities (after research implementation of soft bedding)
- Calves have the benefit of a large functional living space
- Distraction by toys which are available for all herds
- Self-grooming by brushes which are available for all herds
- Increased transparency in the Peter's Farm chain. Open information and transparency through the DNA guarantee programm, open door days, webcams, farmer's code (traceability for the consumer to trace back the veal to the individual farm)
- New born calves are not purchased from a cattle market
- Transport of calf to farm maximum 8 hrs. (500 km)
- Transport of calf to slaughterhouse maximum 4 hrs. (250 km)
